

American Express® Interchange Rate and Payment Network Fee Schedule

Here are the criteria for most interchange programs and payment network fees, and a summary of primary qualifications established by American Express OptBlue®. Keep in mind, the American Express OptBlue network publications will apply to the transaction if there's a conflict between fee schedules.

All fees are billed by and owed to Bank of America — this includes fees that have a payment network name in their description. This schedule is generally updated in April and October and available upon request.
